

Otto Family Labs

BREEDING CONTRACT

Coleman, OK 73432

Jed & Amber Otto

(208) 360-1687

aotto0288@gmail.com

This contract is for the stud services provided by Otto Family Labs

This contract is to verify and record the purchase of 1 breeding in accordance to produce 1 litter of AKC purebred Labrador puppies. This contract guarantees the production of a litter. A litter shall be deemed as 2 or more puppies born to the contracted breeding bitch. The following requirements for breeding will be as follows:

BITCH OWNER REQUIREMENT

1. Bitch owner verifies that the breeding bitch under contract is healthy and free of any disease or parasitic infection prior to breeding.
2. Bitch owner will agree to have the breeding bitch tested by a licensed veterinarian for Brucellosis and provide the negative test results to Otto Family Labs prior to the breeding. In the case that a Brucellosis test is positive, no breeding will be accepted. In the event there are no test results provided, no breeding will take place.
3. In the case of a Natural Breeding, the bitch owner will allow the breeding bitch to be boarded at Otto Family Labs for a minimum of 4 consecutive and up to 10 days free of charge providing the bitch owner supplies her food. If a breeding bitch in board resides for longer than 10 days, a \$10/day fee will apply for necessary feed and daily care.
4. In the case that the breeding is done through artificial insemination, the bitch owner will agree to cover the cost of collection and shipping fees in addition to the stud fee. Otto Family Labs is not responsible for loss/costs arising from mishandling or shipping damage to the collection containers. Collection procedures to be discussed and agreed upon between Otto Family Labs and the bitch owner prior to breeding
5. The bitch owner will agree to pay the stud fee deposit at the time the breeding takes place with the remainder of the entire stud fee to be paid at the time the litter is born
6. Deposit and pick of the litter can be paid to Otto family labs in place of a stud fee if agreed to between Otto Family Labs and the bitch owner in discussion prior to breeding

BITCH OWNER REQUIREMENT, CONT...

7. If at any time, the breeding bitch is found to be aggressive toward, attempts to injure or injures the breeding male, the bitch owner will be contacted to collect the dog, and the breeding will not take place. In the event a breeding does not take place, the stud fee will not be charged. The bitch owner agrees to cover costs of injuries or vet expenses for the breeding male incurred by an aggressive female.

OTTO FAMILY LABS GUARANTEE

1. Otto Family Labs will guarantee a successful breeding that will produce a litter
2. The stud dog is free of disease and parasitic infection prior to breeding
3. Natural breeding will take place for no more and no less than 4 consecutive days of successful pairings. A minimum of 1 pairing per day will take place during the time of 4 consecutive days
4. The breeding bitch will not be exposed to harsh elements, will be fed and watered on a regular schedule, will be allowed appropriate and supervised regular exercise, provided personalized care and attention and provide necessary updates to the bitch owner on a regular basis while under our care and board
5. The litter to be produced will be eligible for AKC full registration, the price of puppies for the litter will be decided at the discretion of the bitch owner
6. In the case of artificial insemination, Otto Family Labs agrees to transport the stud under contract to a mutually agreed upon facility, for semen collection, with good diligence, on the scheduled date(s) of collection. If the first attempt of collection/insemination does not produce a pregnancy, a second collection and insemination attempt will take place, and no additional stud fee will apply. Additional facility collection fees are the responsibility of the bitch owner. If a second attempt of insemination is unsuccessful and a third attempt must be made, \$500 will be charged for the third attempt and any additional attempt thereafter
7. In the case no pregnancy is produced from the breeding, \$1000 from the stud fee will be waived to Otto Family Labs from the bitch owner. Stud fee deposits are nonrefundable
8. Otto Family Labs will provide health testing documentation to the bitch owner prior to breeding.

STUD GUARANTEE

Otto's Beauford Are You Listening

1. Otto's Beauford Are You Listening (Beauford) is an AKC registered Labrador Retriever and will be the male recorded and verified as the stud to be used for this breeding
2. Beauford has been certified by the Orthopedic Foundation for Animals (OFA) to have

STUD GUARANTEE CONT...

NORMAL elbows and EXCELLENT hips, Otto Family Labs will provide documentation of OFA certification and genetic testing to the bitch owner prior to breeding

3. Beauford has been genetically tested for multiple diseases and traits; therefore, Otto Family Labs guarantees that any puppies produced by Beauford will not be affected by symptoms for the following diseases and traits:
 - a. Centronuclear Myopathy (CNM) – CLEAR
 - b. Exercise Induced Collapse (EIC) – CLEAR
 - c. Progressive Retinal Atrophy (PRA) – CLEAR
 - d. Retinal Dysplasia / Oculoskeletal Dysplasia (RDOD1) – CLEAR
 - e. Copper Toxicosis – CLEAR
 - f. Hereditary Nasal Parakeratosis (HNPK) – CLEAR
 - g. D Locus / Dilute – D/D (non-dilute, does not carry dilute)

DISCLOSURE

Though Beauford is a Fox Red Labrador in color, we do not guarantee the color of puppies produced in a litter. “Fox Red” is deemed an acceptable color by the AKC breed standard and is classified as “yellow” and is recorded as “yellow” on registration records.

Discussion of breeding payment method will be agreed upon prior to breeding. “Pick of the Litter” payments are to be assessed and decided upon by both parties prior to breeding.

Otto Family Labs will not be responsible for the cost or loss of affected puppies produced by this breeding due to genetic diseases or traits passed down breeding bitch. It is the breeding bitch's owner's responsibility to make sure the breeding bitch is free of any genetic diseases and traits.

Stud fee deposits are non-refundable.

**All puppies produced as a result of this breeding are to be sold on LIMITED REGISTRATION ONLY and are not to be sold for resale purposes (pet stores / brokers)
(any puppies retained by the bitch owner can be registered with full registration)**
